

C1604DTB3

60cm 4 Zone Touch&Slide Induction Cooktop

Traditionally we cook by generating heat from one source, such as a flame, and conducting it to another.

The Fisher & Paykel Induction Cooktops work on a different principle. The cooktop itself produces electromagnetic field which induce the pot or pan to generate its own heat. The results are shorter heat-up times, greater precision and a safer cooking surface.

Ceramic glass with stainless steel trim

Dimensions

Depth	530
Height	49mm
Width	600

Features & Benefits

Designed to Match

The induction series is part of Fisher & Paykel's modular family of quality kitchen appliances. The black reflective glass, polished metal trim and black ceramic glass blend an elegant, minimalist aesthetic with durability.

Precise Control

Perfect control is at your fingertips with a Touch&Slide capacitive touch intuitive slider that accurately adjusts the power level for each induction zone on the cooktop.

Safe and Sound

The cooktop will alert you if it's turned on without a pot or pan on it and will switch itself off if you don't respond.
