

ILVE NT906WMP SERIES

90CM FREESTANDING COOKERS

GAS COOKTOP & ELECTRIC OVEN

ILVE's range of 90cm NT series cookers have many of the world class features that you would expect from ILVE. One of these features are ILVE's famous **Brass Burners**.

ILVE uses our own burner design. Production of the Venturi is horizontal, as used in the professional cookers. The primary air can be adjusted meaning the cooktop can be used with all types of gas. The air:gas ratio is optimised and the flame can be adjusted. This has a great positive impact in lower emission of CO (carbon monoxide) gasses well up to 1/100 compared with the reference standard. ILVE brass burners combine technical precision with performance. Our new Triple ring design guarantees scorching heat is achieved in an instant. Great for Wok cooking, boiling and grilling.
